*Often seen in the capital of France flanking the grand entrances of the historical buildings, grand estates and important gardens of the 18th and 19th Century, Authentic Provence features this very chic and finely worked collection of Parisian planter boxes. This Parisian jardinières are crafted in aluminium with decorative rings and topped with the typical French “pomme de pin” finial on each of the four corner posts.*

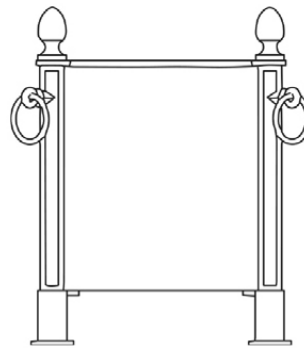

*These raised planter boxes are available in four sizes. Each vessel has the distinct brass plate with the Authentic Provence logo applied onto the front and back of the planter. The bottom of the planter has an inserted grid to allow the release of excess water, and the entire structure is extremely weather resistant.*
