

AUTHENTIC  PROVENCE

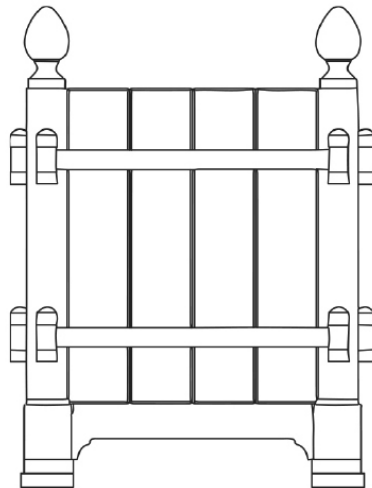

CAISSE DE VERSAILLES

This handmade European Authentic Provence Versailles planter is an exact re-edition of the French planter from the 17th century as seen throughout the Gardens at the Chateau de Versailles. André Le Nôtre, the famous horticulturist of Louis XIV, invented these citrus planters.

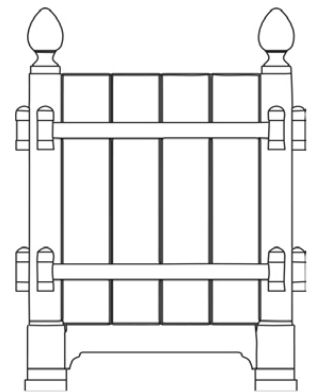

Solely, the Caisse de Versailles has the function to open the four wood panels in order to easily extract the citrus trees, or care for their roots. These French jardinières are made of the the most durable materials; teak wood combined with an aluminum structure. The bottom is completed with an aluminum grill, which allows the sod to be drained and aerated. This historical garden planter is implemented worldwide in the most magnificent gardens.
